

VOICE PROFESSIONAL SERVICES

Consolidated Voice Services from a Single Provider

- ✓ Single Voice provider covering all locations and devices
- ✓ Flexible solution architecture – fully cloud-based or hybrid
- ✓ Consistent end-user experience to retain and attract top talent
- ✓ Integrated solution for voice, video, and data collaboration

Without a unified Voice solution business workflows can be disrupted.

MULTIPLE PROVIDERS

Managing inconsistencies between Voice vendors takes time and effort. Compliance requirements and feature sets vary by provider and region.

RESTRICTED SOLUTION ARCHITECTURE

Limiting Voice to analog or purely on-prem equipment costs more and lacks the feature-rich, mobile options of hybrid or cloud-based solutions.

INCONSISTENT END-USER EXPERIENCE

Varying quality of service across geographies and devices reduces job satisfaction and productivity.

Let us be your Voice.

Empower your hybrid workforce with Voice Professional Services.

1

Single point of contact for all Voice Services, ensuring compliance and coverage across the organization.

2

Solution architecture designed to fit your business needs, including on-prem, cloud-based, or a hybrid solution.

3

Consistent end-user experience for increased productivity and satisfaction.

Unify your Voice solution across your technology estate.

**Single Provider
for global Voice**

**Retain and Attract
Top Talent**

**Simplified,
consolidated
technology estate**

**Certified expertise
in industry-leading
voice providers**

**Integrated
Collaboration**

**Simplified
billing**

**A multi-vendor Voice solution is likely to produce
an inconsistent user experience and complicate
your collaboration.**

Lack of an integrated Voice solution can create a disruptive gap in business workflows. The resulting effect impacts employee morale, hampers mobile collaboration, and takes time to untangle diverse vendor capabilities and costs. Our Voice Professional Services experts craft the Voice solutions that overcome these challenges.

Ready for a unified Voice solution? Here's how we can help.

FOLLOW THESE SIMPLE STEPS TO SUCCESS

SCHEDULE A CALL

Contact us to speak with a specialist and review your Voice options.

ENGAGE IN IMPLEMENTATION
